About Us

The company MEENA PHARMA EQUIPMENTS was established in the year 1982, August in the name of Meena Engineering Works. For three years we manufactured only Syringes. In the fourth year we started manufacturing Volumetric Liquid Filling Machine and Filter Press. Year after year we have added many more item particularly for LIQUID section like Turn Table, Conveyor, Cap Sealing Machine, Tanks, Vessels, Membrane Filter Holder etc.

Today we are manufacturing both Semi-automatic and Automatic Machineries in the name of MEENA PHARMA EQUIPMENTS. The company is continuously rising on the growth chart and setting very high quality standards. Our strict emphasis on Quality is combined with the latest technology to offer our customers a competitive edge.

Since its inception, the company has established a reputation for itself as a supplier of quality products. We focus on quality and aim to achieve total customer satisfaction, both in the products we offer and in the service that follows.

Our highest priority is on customizing our products. We are committed to provide what our customer wants and we provide quality and consistency at the best value.

Automatic Capping Machine

APPLICATIONS :

- OIL INDUSTRIES
- PAINT INDUSTRIES
- COSMETIC PRODUCTS
- PHARMACEUTICAL
- PESTICIDE LIQUIDS
- FOOD PRODUCTS
- ALL TYPES OF LIQUIDS

SALIENT FEATURES:

- Machine is fully automatic and is complete with Vibrator Type Cap Feeding hopper and built-in slat conveyor
- Specially designed to suit the requirement of small and medium scale industries
- Synchronized movement of bottles and sealing machine enables perfect pilfer proof and leak proof sealing
- Sturdy fabrication ensures durability and long life.

Semi Automatic Capping Machine

APPLICATIONS :

- OIL INDUSTRIES
- PAINT INDUSTRIES
- COSMETIC PRODUCTS
- PHARMACEUTICAL
- PESTICIDE LIQUIDS
- FOOD PRODUCTS
- ALL TYPES OF LIQUIDS

SALIENT FEATURES:

- The unit consists of two rollers for sealing various size and shape of the bottles
- It is mounted on sturdy M.S. stand duly painted and is foot operated.
- It is provided with 0.25 h.p. Single-phase motor Lowkim/Crompton make.
